Our company has used SA Debt Recovery at least six times over the last four years and achieved a positive result every time. Now, instead of worrying for months over unpaid debts, resulting in numerous stressful phone calls and letters, we contact Gary knowing that the problem will be solved very quickly. Gary keeps us informed every step of the way in a professional and efficient manner.

We can't thank Gary enough for the monies he's managed to recover for us and I highly recommend his service to any businesses who find themselves with difficult debtors.
