Fire Extinguisher Sales : Testing : Fire Blankets : Fire Hose Reels : First Aid Kits

Gary,

I would like to thank you for your effort in recovering the outstanding money from our client. It was simply amazing that we had been chasing various amounts for around nine months with no success and once we engaged your services we had it within one week. I was very impressed that once we made contact you commenced action immediately and then kept us updated regularly as to how the process was going.

Your fees are very reasonable and it has certainly reinforced the fact to me that it is more beneficial to deal with a family business like yours compared to the larger collection agencies as you offer that personal touch.

Once again thank you so much and no doubt there will be a time when we will need you again.

Regards

Brett Koch
