Hi sue and Gary,

Thank you both for your efforts and perseverance in recovering the debts from an extremely difficult client.

Throughout the process you provided a thorough service and kept me fully informed regarding the procedure and any outcome. It took a while as the client was extremely complex however you have recovered all funds owing which would have otherwise been lost. We have no hesitation in referring you and your team and, as much as we hope we don't need to, should there be a need i the future, we will definitely have no hesitation to work with you again. Thank you!!
