

July 2009

After what seemed like an eternity dealing with a hopeless debt situation we contacted SA Debt Recovery with very little expectation of ever seeing our money. SA Debt Recovery were understanding, empathetic and interested in our situation and we were given peace of mind that they would try their very best. They kept us in the loop with regular updates and within 2 weeks, at very little cost, we had the money deposited directly to our bank account. Thank you Gary, you made the impossible easy.
