

Dear Gary,

I wanted to drop you a line to say thank you for your help.

The Customers outstanding account we approached you to help us with, had been a long standing issue for some considerable time.

We had tried negotiation with the customer, the services of another collection agency, with no success.

Having all but given up hope, we were very pleased with your approach and of course getting the account settled within two weeks.

We will certainly be looking at your services in the future should the need arise.

Thanks again

John Cain
