“We would like to express our sincere thanks to Gary.

He has collected our debt from a very difficult, procrastinating customer.

He has managed to achieve this in 2 weeks, whereas we failed to produce the desired result in the last 12 months.

The staff are pleasant to deal with and explained the process involved in clear and understandable detail.

Gary does all the necessary work needed to collect the debt, including court matters.

We consider his fees and charges very reasonable and is highly recommended by our firm.”
