

nak - the kulture of beautiful hair

2010

I just wanted to drop you a line and thank you for your assistance in collecting funds on our behalf from a very uncooperative client! It was great to have someone who was able to take over the negotiations removing us from the situation on a personal level. I really appreciated your constant feedback and the prompt way in which you took on our case. I would have no hesitation in recommending your business and will be sure to use your services whenever needed.
